Ahoy, Kids!

You probably hear all the time from your parents, grandparents and even teachers that saving money is the right thing to do. If you like spending money and buying stuff, you may be wondering why saving is so much better than spending.

As your credit union, Navigator wants to see you make good choices so we're here to explain not only why you should save, but also how to save. Although spending money seems fun when you're doing it, saving can help you:

- ❑ Learn to be more responsible.
- ❑ Build up your cash stash so you have money when you really need it.
- ❑ Earn interest on the money you have by saving at the credit union.

To start saving now, just follow a few easy steps:

1. Make a list of the things you really want to save for, either now or later on.
2. Take a few dollars from your allowance or weekly chores and save it in your piggy bank. Also put a couple dollars in your wallet or purse for spending money.
3. Put the rest of your moolah in your Navvi-Gator Super Saver's Club account.
4. Now start keeping track of how much you spend, what you bought, and how much you saved. This will help you save more.
