Spring  
2020

## Ahoy, Kids!

It's springtime! The flowers are blooming, the birds are chirping, and the sun is shining. Sometimes grown-ups use the spring as a time to clean things out, start fresh or learn something new, even when it comes to saving money. Parents might come up with a new "budget," for the spring. A budget is just a fancy word for a plan to help you decide how your money will be used. You can do the same thing. Follow these simple tips and learn how to become a "Super Saver" this spring!

☐ Set savings goals. Plan ahead for those things you may want to buy or do in the future - a new book or video game, an upcoming movie or concert, a school dance. Rather than spending money on less important things, you can save for what really matters.

☐ Always pay yourself first. Divide your

weekly earnings from allowance, gifts or chores. Put some in your piggy bank for those things you might need or want soon, put a few dollars in your wallet for spending money, and set aside the rest for future savings.

☐ Visit Navigator with your "future savings" and deposit that money into your Navvi-Gator Super Saver's Club Account. Remember when you deposit at least \$5, you get an entry into the Prize-of-the-Quarter drawing!

☐ Earn more money by doing small jobs like helping around the house or yard, walking the dog or helping an elderly neighbor.

☐ Reward yourself sometimes! Maybe it's your birthday, you got a good grade on your math test or you met a savings goal. Celebrate a job well done!

## Make Some Money Magic

April is National Credit Union Youth Month. This year's theme is "Money Magic: Share, Spend and Save at your Credit Union." The best money magic is to not just spend your money, but save and share it as well. When you get money -- whether it's a gift, from an allowance or for doing extra chores -- divide it into three parts.

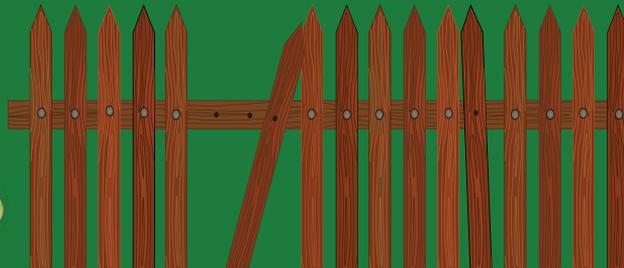

1. Put one third of it in your Navvi-Gator

Super Saver's Club account. The magic of saving money in the Credit Union is that you can buy things you want later.

2. Share one third of it with those in need. The magic of sharing is that when you help others it makes you feel super awesome.
3. Now you can spend the rest on what you like, especially when you plan your purchase and comparison shop. By comparing prices at different stores, you can magically save money. That means you will have more money to share, spend and save at the credit union!

Oh no! The farmer is lost.
